ITA-STQB

ITA-STQB (ITALian Software Testing Qualifications Board) is the Italian Board of **ISTQB®** (International Software Testing Qualifications Board), global leader in the Software Testing Certifications, with over 570.000 “Certified Testers” in the world as of 2018.

ITA-STQB is active since 2007, reaching more than 4.300 certified professionals in December 2018.

ITA-STQB also offers the **IREB®** (International Requirements Engineering Board) certification, the **IQBBA®** (International Qualification Board for Business Analysis) certification, and the **CMAP®** certification (Certified Mobile App Professional) for Mobile App Testing.

Follow Us On...

Thanks to successful previous editions, ITA-STQB is organizing in Milan the ninth edition of the **Italian Software Testing Forum**.

This Call for Presentation aims at collecting speeches for the conference to be held on Wednesday June 5th, 2019.

STF 2019 will have the support of leading International Experts from industry and academia, sharing ideas, experiences and giving a broad view on advances in software and services quality.

INVITATION TO SUBMIT YOUR EXPERIENCE

We are open to welcome presentations that will be included in the afternoon sessions of the Conference.

The selection will be made by the *Program Committee*.

Presentations have to deal with experiences in business analysis, requirements engineering, testing and, more generally, software quality; a priority will be assigned to presentations and experiences dealing with the following key-topics:

- **Business Analysis, Requirements Engineering, Testing in emerging domains**
- **Crowd Testing**
- **Business Analysis, Requirements Engineering, Testing for Machine Learning**
- **Machine Learning for Testing**
- **Testing strategies for Microservices Architectures**
- **A/B Testing**
- **(Hacking &) Security Testing**
- **Quality in DevOps**
- **Quality in Internet of Things**
- **Big Data Automation Testing: Architecture and Performance**

To submit your application, please send to info@ita-stqb.org and marketing@ita-stqb.org **within March 15th 2019** your proposal, consisting of the presentation title, speaker (name and affiliation), and a 1.000-characters abstract

The selection of the proposals will be based on the following criteria: subject, innovation level, maturity of experience, consistency with Software Testing Forum key topics. All applicants will receive a feedback within March 30th 2019.
